

Flowcode

Installation Ended Prematurely Because Of An Error - Flowcode v4 v5

When installing Flowcode you may experience an error stating "Installation Ended Prematurely Because Of An Error"

If this occurs then the problem can be resolved by doing the following steps:

For 32 bit machines:-

- 1) Click Start and Run
- 2) Type in "regsvr32 %SystemRoot%\system32\vbscript.dll" without the quotes
- 3) Click OK
- 4) Retry the installation routine

For 64 bit machines:-

- 1) Click Start and Run
- 2) Type in "regsvr32 %SystemRoot%\SysWOW64\vbscript.dll" without the quotes
- 3) Click OK
- 4) Retry the installation routine

If this does not work ensure that the vbscript.dll is in the location specified.

For 32bit => C:\windows\system32\vbscript.dll

For 64bit => C:\windows\SysWOW64\vbscript.dll
